## The Bulletin of the World Health Organization

- A **fully open-access** journal of public health with a special focus on low and middle-income countries, first published in 1948.
- There are **no article-processing charges** associated with submitting to, or publishing in the *Bulletin*.
- All peer-reviewed articles and the journal archives are indexed, including in the Web of Science and MEDLINE, and are freely available under the Creative Commons Attribution 3.0 IGO license (CC BY 3.0 IGO).

# WHO website

The screenshot shows the WHO website homepage. At the top, there is a dark blue navigation bar with 'Global' and 'Regions' on the left, a search icon, a language selector 'Select language', and a 'Donate' button on the right. Below this is the WHO logo and name. A secondary dark blue navigation bar contains a home icon and links for 'Health Topics', 'Countries', 'Newsroom', 'Emergencies', 'Data', and 'About WHO'. The 'Countries' menu is expanded, showing three columns: 'All countries' with an alphabetical index (A-Z), 'Regions' with a list of six regions (Africa, Americas, Europe, Eastern Mediterranean, South-East Asia, Western Pacific), and 'WHO in countries' with a list of four categories (Data by country, Country presence, Country strengthening, Country cooperation strategies). The main content area features a large banner for 'World Humanitarian Day' with a background image of WHO staff in a field setting. The banner includes the text 'Read the call to action from the Global Health Cluster' and a 'Credits' link with a plus icon.

## The Global Health Observatory

The screenshot shows the WHO Global Health Observatory homepage. At the top is a dark blue navigation bar with 'Global' and 'Regions' on the left, a search icon, a language selector, and a 'Donate' button on the right. Below this is a white bar with the WHO logo and a secondary navigation bar with links like 'GH0 Home', 'Indicators', 'Countries', 'Data API', 'Map Gallery', 'Publications', and 'Data Search'. The main banner is purple with the text 'THE GLOBAL HEALTH OBSERVATORY' and 'Explore a world of health data', featuring buttons for 'Indicators' and 'Countries'. Below the banner are three image-based sections: 'Universal Health Coverage', 'Health Emergencies', and 'Health and Well-Being'. A section titled 'Coronavirus disease (COVID-19) data' follows, with a paragraph about data sources and a note about COVID-19 data availability. At the bottom, there are two featured items: 'Novel Coronavirus (COVID-19) Situation dashboard' with a world map icon and 'Novel Coronavirus (COVID-19) Situation reports' with a photo of people in a lab. A search bar is at the very bottom.

GHO HomeIndicatorsCountriesData API ▾Map GalleryPublicationsData Search

Featured portals

**Maternal, Newborn, Child and Adolescent Health and Ageing**

In this portal you will find the most up to date global health data, including regional and country data organized separately in the areas of maternal, newborn, child and adolescent health. The data can be visualized on charts and maps which you can download.

**Global Strategy for Women's, Children's and Adolescents' Health (2016-2030)**

This data portal for the Every Woman Every Child (EWEC) Global Strategy is a collaborative product of the 116 agencies (UNAIDS, UNFPA, UNICEF, UN Women, WHO and the World Bank Group) and other UN and technical partners supporting the monitoring of the EWEC Global Strategy and related SDG targets.

**Global Observatory on Health R&D**

This is a centralized and comprehensive source of information and analyses on global health R&D activities. The Observatory monitors various health R&D related data and incorporates these in comprehensive analyses, with interactive visualizations to help users track and investigate the development in health R&D across many dimensions. The Observatory will help governments, policy-makers, funders and researchers identify health R&D priorities based on public health needs and ensure that funds and resources are used to fill R&D gaps.

**Sexual and Reproductive Health and Rights Policy Portal**

The SRH portal is a visual summary of policies and practices from 155 countries on 6 SRH thematic areas: Infertility, Family Planning, Violence Against Women, Cervical Cancer, STIs, and Sexual Health. The data presented was obtained in a global survey conducted in 2019.

Featured data sets

**Global health estimates**

The latest available data on counts of death and disability globally, by WHO region and country, by age, sex and by income group.

**Mortality database**

A platform for visualizing mortality data by country, year, age, sex and cause of death as reported by countries.

**Health SDGs**

The health-related Sustainable Development Goals track progress towards ensuring healthy lives and promote well-being for all at all ages.

**Mortality due to pregnancies with abortive outcome**

Unsafe abortion occurs when a pregnancy is terminated either by persons lacking the necessary skill/information or in an environment that does not conform to minimal medical standards, or both.

**Immunization data**

Download, visualize, and interact with global, regional and country summaries of immunization data over time.

Featured dashboards

**COVID-19 situation dashboard**

Provides the latest data on overall confirmed cases and fatalities as well as cases by country and comparisons by WHO region.

**Triple Billion dashboard**

Tracks the progress of WHO countries, regions and partners towards meeting the Triple Billion targets and health-related Sustainable Development Goals (SDGs).

**WHO Health Equity Monitor**

The WHO Health Equity Monitor provides evidence on existing health inequalities and makes available tools and resources for health equity monitoring.

**WHO Mortality dashboard**

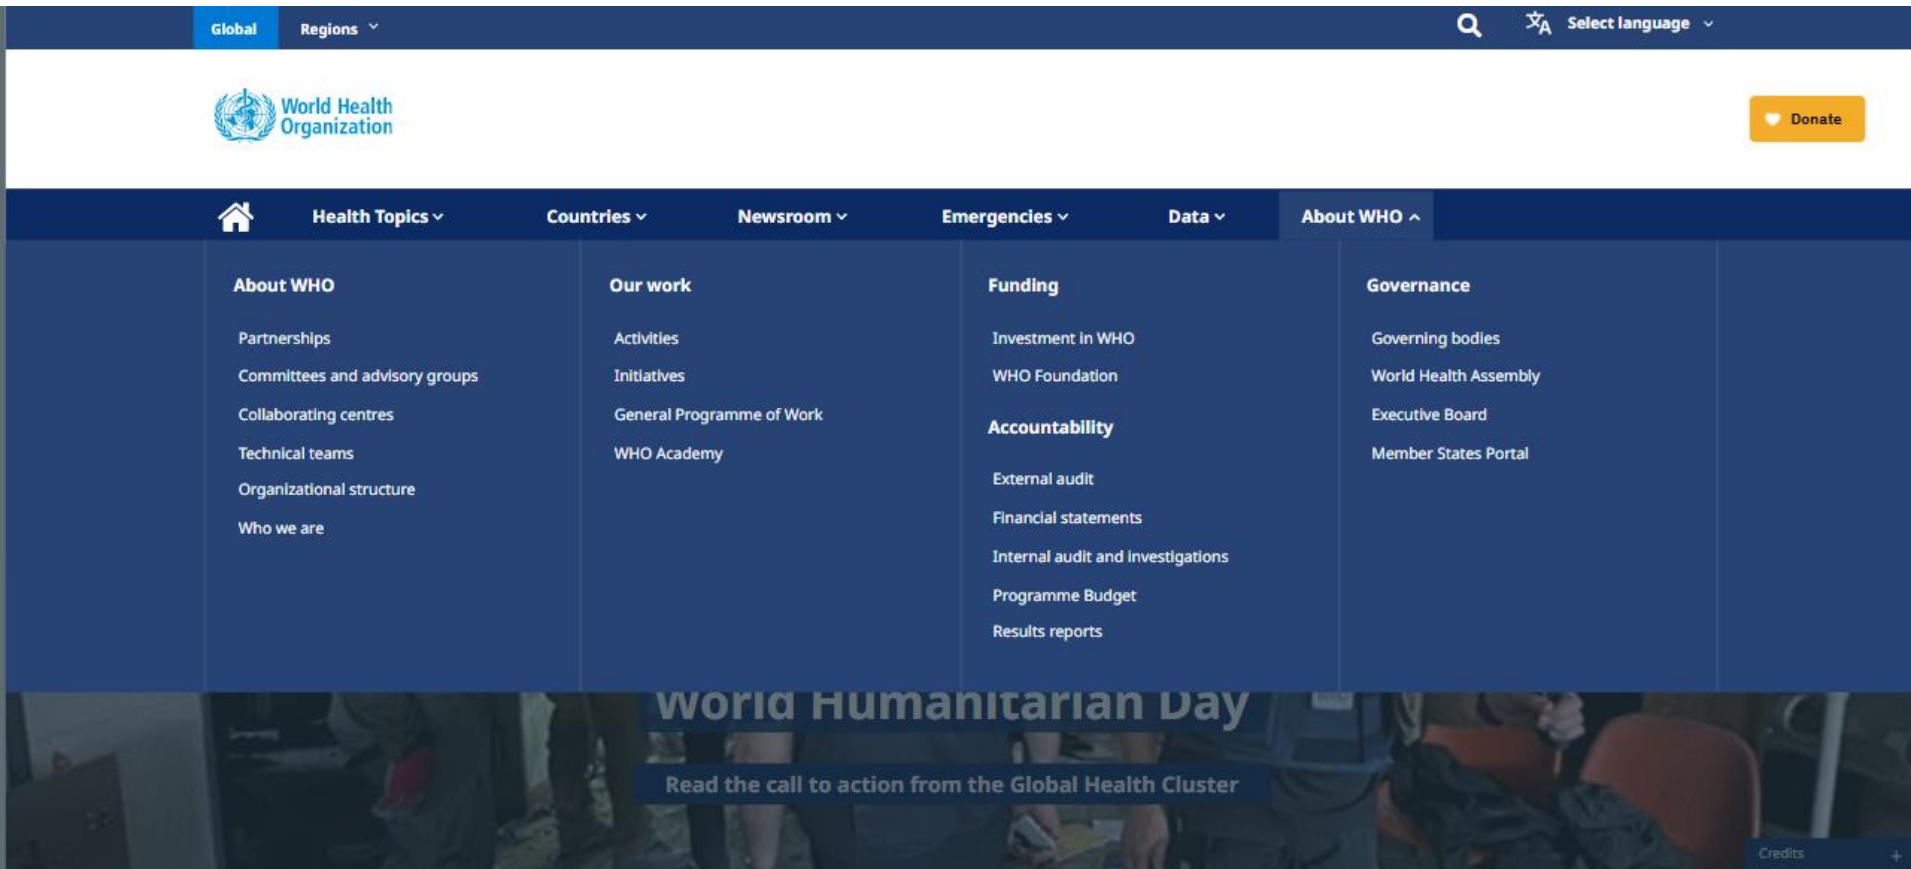

The latest available data on causes of death and disability globally, by WHO region and country, by age, sex and by income group.

# WHO Library

<https://www.who.int/library>

- The world's leading library on public health.
- It provides access to knowledge from WHO as well as to other sources of scientific literature produced around the world.
- WHO library resources and expertise provide scientific evidence and knowledge to low- and middle- income countries through a set of low-cost/high-use initiatives.

# WHO Library initiatives

## WHO Library initiatives

### Institutional Repository for Information Sharing (IRIS)

IRIS is the digital library of WHO's published material and technical information in full text produced since 1948. Its content is freely accessible and searchable in the six official languages (Arabic, Chinese, English, French, Russian & Spanish).

### Global Index Medicus

The Global Index Medicus (GIM) provides universal access to biomedical and public health literature produced by and within low- and middle-income countries.

### Research4Life

Research4Life provides institutions in lower income countries with online access to academic and professional peer-reviewed content. We aim to improve teaching, research and policy-making in health, agriculture, the environment and other life, physical and social sciences.
