VIDEO

The background image shows the exterior of the Clinique Générale-Beaulieu in Geneva. It is a multi-story building with a modern architectural style, featuring balconies with glass railings and a mix of dark and light-colored panels. A sign above the entrance reads "CLINIQUE GENERALE - BEAULIEU". In the foreground, there is a paved walkway, some greenery, and a black lamppost with a spherical globe. The overall scene is well-lit, suggesting daytime.
